

## 5 GOOD REASONS!

### 1. One family, five generations!

For five generations we of the De Stefani family have passed down our passion for grape vine growing and the art for producing high-quality wines.

### 2. Certified Sustainability!

We work following sustainability principles both in the vineyard and in the winery. We are a certified Sustainable Winery by Equalitas parameters: environmental, social and economic. We are also certified SQNPI for sustainable viticulture and Biodiversity Friend for the biodiversity in our vineyards.

### 3. Quality with no compromise!

40 years old vineyards, 8.400 vines per hectare, very low yield of grapes per plant, native local varieties, single vineyards Grand Cru, special vinification techniques, indigenous yeast. All this and much more for one purpose only: complex and elegant wines, connected to the area of production.

### 4. Between sea and mountains!

Our vineyards are located in Italy, in the Veneto region, between the Adriatic sea (Mediterranean Sea) and the Dolomites mountains (Alps), precisely in the Piave Valley near Venice and on the hills of Conegliano – Valdobbiadene, a UNESCO World Heritage site

### 5. Awarded by all world's wine Guides!

Our wines are awarded by all the most important international wine guides: Wine Spectator, Robert Parker Wine Advocate, James Suckling, Luca Maroni, Wine Enthusiast, Wines and Spirits, Gambero Rosso, Antonio Galloni Vinous, Slow Food, Associazione Italiana Sommelier, Veronelli, Espresso, Touring Club, Falstaff and many more.
